

## 2008 TAX FORMS ORDER

Your order will be shipped direct from the factory, and after adding the appropriate shipping costs and taxes, you will be directly invoiced by Argos.

Please reference the chart on Page 15 of the brochure if you need information regarding number of parts per form needed to meet your state's requirements. Please note: All versions of ABECAS use the Government Utility for the W-2s and print on laser forms only. If using our DOS product, you may print the 1099s on either continuous or laser forms. ABECAS Insight customers will always use the Government Utility program for 1099s and must print on laser forms.
